## **SUGGESTIONS ON ANSWERING ESSAY QUESTIONS**

The essay portion of the bar examination is designed to test your ability to demonstrate a basic and essential capacity for the practice of law. Your grade will be based on your ability to identify and analyze issues and to present an organized, coherent and well-written response within the prescribed format. The response must be lawyer-like. On some questions this may require you to write a concise document that approximates the work product of a practicing lawyer; for example, a written legal argument, a memorandum of law, an attorney's letter, a contractual provision, or an analysis of a statute.

Please be reminded that candidates must make a bona fide effort to answer each and every essay question to have his or her examination graded.

Knowledge of developments in the law of New Jersey may be beneficial; Board members have used case law as a source of questions. Although knowledge of New Jersey law will not be crucial to success on the examination, familiarity with new law or distinctive cases will aid you in preparing your responses.

In addition to the foregoing:

1. Read and re-read the problem carefully to familiarize yourself with the facts and circumstances. Do not assume additional facts unless directed to do so.
2. Make certain you understand the directions that appear in bold face type at the conclusion of the problem. The instructions may be different for each question. Adhere to those instructions and plan your response accordingly. Before you begin to write your answer, outline and organize your response.
3. Do not use a 'scattershot' approach; rather, structure your answer before you begin to write so that the essay will demonstrate your ability to analyze legal problems and to provide an organized, logical and coherent written response.
4. When appropriate to the format of the question, discuss all sides of issues and do not let your disposition of an issue preclude discussion of other issues presented. When appropriate, discuss procedures and remedies as well as legal rights and liabilities.
5. Allocate enough time to compose a clear and concise response. The writing ability exhibited by your response will affect your grade. There are seven essay questions four in a three-hour morning session and three in a two-hour and fifteen minute afternoon session.
